Environmental design involves the study of built, natural, global, and virtual environments. Various forms of practice include architecture, planning, urban design, and social and environmental activism. This course is a survey of relationships between people and environments, designed and non-designed, with an introduction to the literature and professional practices. Open to all undergraduate students in the College of Environmental Design as well as other colleges and majors.

Course may be repeated for credit. Course may be repeated for credit when topic changes. Student will receive no credit for 1 after taking 4.

Instructors: de Monchaux, Jewell

## **ENV DES 2 Introduction to Environmental Design Summer Lectures 1 Unit**

**Department:** Environmental Design

**Course level:** Undergraduate

**Term course may be offered:** Summer

**Grading:** Offered for pass/not pass grade only.

**Hours and format:** 2 hours of Lecture per week for 8 weeks. 3 hours of Lecture per week for 6 weeks.

This course accompanies the summer studio and media classes in the architecture and landscape architecture post-baccalaureate programs, (IN)Arch and (IN)Land, of the College of Environmental Design. This series of eight lectures by faculty in the College of Environmental Design at Berkeley presents a range of approaches, theories, and practices in the design fields. Lectures will include topics in landscape architecture, architectural practice, building construction and systems, global cities, urban ecology, building sustainability, social and political aspects of architecture, and a panel discussion by professionals who are previous students of the College.

## **ENV DES R3B Reading and Composition in Energy, Society, and Environmental Design 4 Units**

**Department:** Environmental Design

**Course level:** Undergraduate

**Terms course may be offered:** Fall and spring

**Grading:** Letter grade.

**Hours and format:** 3 hours of Lecture per week for 15 weeks.

**Prerequisites:** UC Entry Writing Requirement or UC Analytical Writing Placement Exam. R1A or equivalent course is prerequisite to R1B.

This course will expose students to key literature that examines, primarily, the relationship between sustainability and environmental design disciplines. Our goal will be not only to investigate the central ideas that

inform the design of sustainable landscapes, cities, and buildings, but also to understand how competing arguments are presented in writing. Satisfies the second half of the Reading and Composition Requirement.
