

Economics

Bachelor of Arts (BA)

The Department of Economics is home to over 1200 undergraduate students. Economics majors can enroll in a broad array of economics courses, ranging from economic history to advanced macroeconomics. Students are encouraged to study abroad, participate in research, and take advantage of the many opportunities Berkeley has to offer.

Declaring the Major

As an impacted major with a highly competitive admissions process, the economics major is capped. Students who want to apply to the economics major must have completed or be currently enrolled in all the major prerequisites. After fall 2004, students admitted to Berkeley as freshmen must apply by their fifth semester of post-high school coursework unless they have fewer than 80 total units. This total includes coursework in progress but excludes high school enrichment units, e.g., Advanced Placement, International Baccalaureate, or other college units earned prior to high school graduation. Transfer students admitted to Berkeley in fall 2006 and later are required to enroll in missing prerequisites and apply to the major during their first semester at Berkeley. The unit cap does not apply to transfer students.

For more information, please visit the department's website. (<https://www.econ.berkeley.edu/undergrad/prospective>)

Honors Program

Students interested in graduating with honors in economics should consult with a faculty adviser no later than the first semester of their senior year. The department recommends a student for graduation with honors based on evidence of superior performance provided by a thesis written in the senior year and the student's course grade record overall and in the major. The minimum major grade point average (GPA) requirement is 3.5 in upper division economics courses and 3.3 GPA overall. The senior thesis may be an extension of a seminar paper prepared under the continued guidance of a faculty member through enrollment in ECON H195A/ECON H195B.

Minor Program

There is no minor program in economics.

In addition to the University, campus, and college requirements listed on the College Requirements tab, students must fulfill the below requirements specific to their major program.

General Guidelines

1. All courses taken to fulfill the major requirements below must be taken for graded credit, other than courses listed which are offered on a Pass/No Pass basis only. Other exceptions to this requirement are noted as applicable.
2. No more than one upper division course may be used to simultaneously fulfill requirements for a student's major and minor programs, with the exception of minors offered outside of the College of Letters & Science.
3. A minimum grade point average (GPA) of 2.0 must be maintained in both upper and lower division courses used to fulfill the major requirements.

For information regarding residence requirements and unit requirements, please see the College Requirements tab.

Prerequisites

Five courses

Select one calculus sequence from the following: ¹

MATH 1A & MATH 1B	Calculus and Calculus
MATH 16A & MATH 16B	Analytic Geometry and Calculus and Analytic Geometry and Calculus (or equivalent)

Select one statistics course from the following: ¹

IND ENG 172	Probability and Risk Analysis for Engineers [3]
STAT C8 & STAT 88	Foundations of Data Science and Probability and Mathematical Statistics in Data Science (STAT C8 and STAT 88 must be taken together for a total of 6 units to fulfill the statistics requirement.)
STAT 20	Introduction to Probability and Statistics [4]
STAT 21	Introductory Probability and Statistics for Business [4]
STAT 131A	Statistical Methods for Data Science [4]
STAT 134	Concepts of Probability [3]

Select one of the following:

ECON 1	Introduction to Economics [4]
ECON 2	Introduction to Economics--Lecture Format [4] (or equivalent)

Select one of the following:

ECON 100A	Economic Analysis--Micro [4]
ECON 100B	Economic Analysis--Macro [4]
ECON 101A	Economic Theory--Micro [4] (or equivalents)
ECON 101B	Economic Theory--Macro [4]

¹ At least one semester of the calculus/statistics requirement must be completed at UC Berkeley.

Upper Division Requirements

Seven courses

Select one course from the following, to complete the sequence begun as a prerequisite:

ECON 100A	Economic Analysis--Micro [4]
ECON 100B	Economic Analysis--Macro [4]
ECON 101A	Economic Theory--Micro [4]
ECON 101B	Economic Theory--Macro [4]

Select one econometrics class from the following:

ECON 140	Economic Statistics and Econometrics [4]
ECON 141	Econometric Analysis [4]

Select five additional upper division economics courses

Undergraduate students must fulfill the following requirements in addition to those required by their major program.

For detailed lists of courses that fulfill college requirements, please review the College of Letters & Sciences (<http://guide.berkeley.edu/archive/2018-19/undergraduate/colleges-schools/letters-science>) page

in this Guide. For College advising appointments, please visit the L&S Advising (<https://ls.berkeley.edu/advising/about-undergraduate-advising-services>) Pages.

University of California Requirements

Entry Level Writing (<http://writing.berkeley.edu/node/78>)

All students who will enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing requirement. Fulfillment of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (<http://guide.berkeley.edu/archive/2018-19/undergraduate/colleges-schools/letters-science/american-history-institutions-requirement>)

The American History and Institutions requirements are based on the principle that a US resident graduated from an American university, should have an understanding of the history and governmental institutions of the United States.

Berkeley Campus Requirement

American Cultures (<http://americancultures.berkeley.edu/students/courses>)

All undergraduate students at Cal need to take and pass this course in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American Culture.

College of Letters & Science Essential Skills Requirements

Quantitative Reasoning (<http://guide.berkeley.edu/archive/2018-19/undergraduate/colleges-schools/letters-science/quantitative-reasoning-requirement>)

The Quantitative Reasoning requirement is designed to ensure that students graduate with basic understanding and competency in math, statistics, or computer science. The requirement may be satisfied by exam or by taking an approved course.

Foreign Language (<http://guide.berkeley.edu/archive/2018-19/undergraduate/colleges-schools/letters-science/foreign-language-requirement>)

The Foreign Language requirement may be satisfied by demonstrating proficiency in reading comprehension, writing, and conversation in a foreign language equivalent to the second semester college level, either by passing an exam or by completing approved course work.

Reading and Composition (<http://guide.berkeley.edu/archive/2018-19/undergraduate/colleges-schools/letters-science/reading-composition-requirement>)

In order to provide a solid foundation in reading, writing, and critical thinking the College requires two semesters of lower division work in composition in sequence. Students must complete parts A & B reading and composition courses by the end of their second semester and a second-level course by the end of their fourth semester.

College of Letters & Science 7 Course Breadth Requirements

Breadth Requirements (<http://guide.berkeley.edu/archive/2018-19/undergraduate/colleges-schools/letters-science/#breadthrequirements>)

The undergraduate breadth requirements provide Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepares Berkeley graduates to understand and solve the complex issues of their day.

Unit Requirements

- 120 total units
- Of the 120 units, 36 must be upper division units
- Of the 36 upper division units, 6 must be taken in courses offered outside your major department

Residence Requirements

For units to be considered in "residence," you must be registered in courses on the Berkeley campus as a student in the College of Letters & Science. Most students automatically fulfill the residence requirement by attending classes here for four years. In general, there is no need to be concerned about this requirement, unless you go abroad for a semester or year or want to take courses at another institution or through UC Extension during your senior year. In these cases, you should make an appointment to meet an adviser to determine how you can meet the Senior Residence Requirement.

Note: Courses taken through UC Extension do not count toward residence.

Senior Residence Requirement

After you become a senior (with 90 semester units earned toward your BA degree), you must complete at least 24 of the remaining 30 units in residence in at least two semesters. To count as residence, a semester must consist of at least 6 passed units. Intercampus Visitor, EAP, and UC Berkeley-Washington Program (UCDC) units are excluded.

You may use a Berkeley Summer Session to satisfy one semester of the Senior Residence requirement, provided that you successfully complete 6 units of course work in the Summer Session and that you have been enrolled previously in the college.

Modified Senior Residence Requirement

Participants in the UC Education Abroad Program (EAP), Berkeley Summer Abroad, or the UC Berkeley Washington Program (UCDC) may meet a Modified Senior Residence requirement by completing 24 (excluding EAP) of their final 60 semester units in residence. At least 12 of these 24 units must be completed after you have completed 90 units.

Upper Division Residence Requirement

You must complete in residence a minimum of 18 units of upper division courses (excluding UCEAP units), 12 of which must satisfy the requirements for your major.

For more detailed information regarding the courses listed below (e.g., elective information, GPA requirements, etc.), see the College Requirements and Major Requirements tabs.

			Freshman
	FallUnits	SpringUnits	SummeUnits

Total Units: 124			

¹ This is a sample program plan. This plan assumes that the student has completed the Entry Level Writing, American History and Institutions, Quantitative Reasoning, and Foreign Language requirements prior to admission, and does not require MATH 32.

- ² To declare the Economics major, students must complete all prerequisite courses and apply to the major no later than their fifth semester at Berkeley. A minimum prerequisite GPA of 3.0 is also required.
- ³ The economics major is impacted and cannot guarantee enrollment in specific courses.
- ⁴ Students are strongly advised to work with an academic adviser to determine a personal program plan. Your program plan will differ depending on previous credit received, your course schedule, and available offerings.
- ⁵ MATH 53 is a prerequisite to enroll in ECON 101A. ECON 101A, ECON 101B and ECON 141 (more quantitatively rigorous versions of ECON 100A, ECON 100B, and ECON 140) are recommended for students interested in research or pursuing a PhD in Economics, and require the MATH 1A-MATH 1B series as prerequisites. ECON 100A/ECON 101A and ECON 100B/ECON 101B can be taken out of order. ECON 140/ECON 141 should be taken the semester following completion of ECON 100A/ECON 101A and ECON 100B/ECON 101B.
- ⁶ Statistics prerequisite should be completed no later than fall semester of 2nd year. Other options to this prerequisite are: STAT 131A, STAT 134, or IND ENG 172.
- ⁷ For students intending to complete the Economics Honors Program, one approved research course can be used to fulfill both the "Research Requirement" for the Honors Program and an upper division elective. Discuss your plans for this Program with an Economics Adviser. The Economics Honors Program is *optional*.
- ⁸ ECON H195B is the Honors Thesis Course for students intending to complete the Economics Honors Program (<https://www.econ.berkeley.edu/undergrad/current/departamental-honors>). Discuss your plans for this Program with an Economics Adviser. The Economics Honors Program is optional.

Accelerated Program Plans

For students considering graduating in less than four years, it's important to acknowledge the reasons to undertake such a plan of study. While there are advantages to pursuing a three-year degree plan such as reducing financial burdens, they are not for everyone and do involve sacrifices; especially with respect to participating in co-curricular activities, depth of study, and summer internships, which typically lead to jobs upon graduation. All things considered, please see the tables for three and three and a half year degree options.

3.5 Year Plan (<https://www.econ.berkeley.edu/sites/default/files/Website%203.5%20Year.pdf>)

3 Year Plan (<https://www.econ.berkeley.edu/sites/default/files/Website%203%20Year.pdf>)

Mission

Economics is the study of how people make choices under conditions of scarcity and the results of those choices for society. Limited resources make tradeoffs necessary for consumers, businesses, and nations. Microeconomics studies how consumers make choices in using their time and spending their income and how businesses make choices in producing and selling goods and services. Macroeconomics studies the determination of national income and how it deviates from its potential (full employment) over the business cycle. The important outcomes for the national economy are income and how it is distributed, unemployment, inflation, economic growth, and how well financial

markets and international trade are functioning. Economics is important in studying the impact of government policies, ranging from regulatory activities in individual markets to general measures for stabilizing and steering the economy at large. The effect of alternative economic policies on the welfare of the population is a core concern in economics. Undergraduates should have the following knowledge and skills when they graduate with an economics major from UC Berkeley. The Department of Economics wants their majors to have knowledge of economics principles with the skills to apply this knowledge in the following ways.

Learning Goals of the Major

Critical Thinking Skills

- Apply economic analysis to evaluate everyday problems.
- Apply economic analysis to evaluate specific policy proposals.
- Compare two or more arguments that have different conclusions to a specific issue or problem.
- Understand the role of assumptions in arguments.

Quantitative Reasoning Skills

- Understand how to use empirical evidence to evaluate an economic argument.
- Interpret statistical results.
- Conduct appropriate statistical analysis of data and explain the statistical problems involved.
- Obtain and/or collect relevant data using specific qualitative and/or quantitative research methods.

Problem-Solving Skills

- Solve problems that have clear solutions.
- Propose solutions for problems that do not have clear answers and indicate under what conditions they may be viable solutions.

Specialized Knowledge and Application of Skills

- In specific content areas (fields) of economics, develop deeper critical and quantitative thinking skills, and apply problem-solving skills to complex problems.

Communication Skills

- Communicate effectively in written, spoken, and graphical form about specific economic issues.
- Formulate a well-organized written argument that states assumptions and hypotheses, which are supported by evidence.
- Present an economic argument orally.

Lifelong Learning Skills

- Possess a working knowledge of information databases (e.g., Econ Lit, Nexis-Lexis).
- Know how to locate and use primary data sources (e.g., BLS Household Survey, UN Human Development Index).
- Understand and evaluate current economic events and new economic ideas.

Career Services Overview

The UC Berkeley Career Center (<https://career.berkeley.edu>) prepares undergraduates, graduate students, and alumni to make informed decisions about their futures by providing comprehensive resources,

programs, and counseling on career development, internships, employment, and graduate school. Whether it be through a resume critique, an alumni networking event, or an interviewing skills workshop, the Career Center is committed to helping all students achieve:

- **Career Clarity:** Providing students the opportunity to identify their career direction
- **Career Competitiveness:** Providing students the opportunities to enhance their marketability via real world experiences
- **Career Connections:** Providing students opportunities to engage with alumni and employers

Common Career Paths for Economics Majors Career Destinations Survey

Every year the Career Center surveys graduating seniors (<https://career.berkeley.edu/Survey/Survey>) about their post-graduation plans to better understand the career outcomes of our alumni including: career fields, job titles, specific employers, entry-level salaries, and graduate/professional school destinations. The data profiles by major provide an impressive overview of the diverse interests and achievements of recent graduates from UC Berkeley, including specific data for the Economics Department (<https://career.berkeley.edu/sites/default/files/pdf/Survey/2014Econ.pdf>). (<https://career.berkeley.edu/sites/default/files/pdf/Survey/2014Econ.pdf>) Each survey year includes the August, December, and May graduating cohorts for that survey year. This data is designed to provide students, alumni, and employers with critical information about where Cal students go after graduation. As expected, college major does not restrict the employment or graduate school options that Cal students pursue. With careful planning (<https://career.berkeley.edu/Plan/Plan>), you can develop career-related skills and experiences that can prepare you for almost any job or graduate school field.

Sample Career Pathways

Economics majors go on to pursue a wide variety of career options including, but not limited to:

- **Economics:** Data collection, research analysis, forecasting, planning, consulting and policy advising roles in many industries including private sector consulting and research firms, retail, insurance, transportation, healthcare, federal, state and local government agencies, public utilities, or labor unions.
- **Banking and finance:** Financial analysis, commercial banking, mortgage and lending services, credit analysis, branch management, securities sales and research.
- **Management:** Business and industry including banks, retail stores, restaurants, hotels, healthcare, manufacturing, government and nonprofit organizations.
- **Insurance:** Claims, underwriting, risk management, sales, loss control, and actuarial science.
- **Sales:** Industrial sales, consumer product sales, financial services sales, advertising sales, ecommerce, high tech forms, and media.
- **Education:** Teaching, research and administrative roles in colleges, universities, and secondary schools.

Visit our Connecting Majors to Careers (<https://career.berkeley.edu/Infolab/Majors2Careers>) resource to explore additional career paths most commonly associated with over 80 majors, including Economics (<http://major.utk.tennessee.edu/major/wp-content/uploads/2011/05/economics.pdf>).

Career Services Overview

The UC Berkeley Career Center (<https://career.berkeley.edu>) prepares undergraduates, graduate students, and alumni to make informed decisions about their futures by providing comprehensive resources, programs, and counseling on career development, internships, employment, and graduate school. Whether it be through a resume critique, an alumni networking event, or an interviewing skills workshop, the Career Center is committed to helping all students achieve:

- **Career Clarity:** providing students the opportunity to identify their career direction;
- **Career Competitiveness:** providing students the opportunity to enhance their marketability via real-world experiences;
- **Career Connections:** providing students opportunities to engage with alumni and employers.

Career and Internship Resources

The UC Berkeley Career Center (<https://career.berkeley.edu>) offers a wide variety of programs and resources to support students of all majors and class levels.

- **Job Search Tools** (<https://career.berkeley.edu/Tools/Tools>): Resume and cover letter writing, job search strategies, networking tools, interviewing skills, and more.
- **Career Counseling** (<https://career.berkeley.edu/Info/MakeAppt>): A wide variety of scheduled and drop-in appointment options based on major and topic.
- **Internships** (<https://career.berkeley.edu/Internships/Internships>): Internship listings, search strategies, FAQs, and more.
- **Career Exploration** (<https://career.berkeley.edu/Info/CareerExp>): Resources to explore career options, identify career goals, and develop effective career plans.
- **Events and Workshops** (<https://career.berkeley.edu/Info/Events>): Over 70 events each semester including workshops, alumni networking events, career panels, conferences, and on-campus Career Chats.
- **Career Fairs and Employer Information Sessions** (<https://career.berkeley.edu/Callisto/Infosession>): We offer 14 career fairs each year across a variety of career fields and partner with numerous employers for on-campus information sessions.
- **Graduate and Professional School** (<https://career.berkeley.edu/Info/GradProf>): Counseling and resources to help students research and apply for graduate and professional school including medical school (<https://career.berkeley.edu/Medical/Medical>) and law school (<https://career.berkeley.edu/Law/Law>).

*The above services are available to all currently enrolled UC Berkeley students and members of the Career Center's Alumni Advantage (<https://career.berkeley.edu/Alumni/AlumniAdv>) program.

Student Services

The economics student services mission is to advise our students holistically by providing a high standard of service in a supportive and collaborative environment. Professional and peer advisers work as a team to provide accurate information in a timely manner. We partner with faculty to assist students in engaging with the campus and the global economic community. We value fairness, diversity, and the important

roles our students, faculty, and staff in the Department of Economics play at the University of California, Berkeley.

Please visit our website for more information about our advising services: <https://www.econ.berkeley.edu/undergrad/home/advising>

ECON 1 Introduction to Economics 4 Units

Terms offered: Summer 2020 8 Week Session, Spring 2020, Fall 2019
A survey of economics designed to give an overview of the field.

Introduction to Economics: Read More [+]

Rules & Requirements

Credit Restrictions: Students will receive no units for Economics 1 after passing Economics 2.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 2 hours of discussion per week

Summer: 8 weeks - 4 hours of lecture and 4 hours of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Introduction to Economics: Read Less [-]

ECON 2 Introduction to Economics--Lecture Format 4 Units

Terms offered: Spring 2020, Spring 2019, Spring 2018

The course provides a survey of economics principles and methods. It covers both microeconomics, the study of consumer choice, firm behavior, and market interaction, and macroeconomics, the study of economic growth, unemployment, and inflation. Special emphasis is placed on the application of economic tools to contemporary economic problems and policies. Economics 2 differs from Economics 1 in that it has an additional hour of lecture per week and can thus cover topics in greater depth. It is particularly appropriate for intended economics majors.

Introduction to Economics--Lecture Format: Read More [+]

Rules & Requirements

Credit Restrictions: Students will receive no credit for ECON 2 after completing ECON 1; 2 units after completing ECON 3 or ENVECON 1 or ECON 3/ENVECON 1.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Introduction to Economics--Lecture Format: Read Less [-]

ECON C3 Introduction to Environmental Economics and Policy 4 Units

Terms offered: Spring 2020, Fall 2019, Spring 2019

Introduction to microeconomics with emphasis on resource, agricultural, and environmental issues.

Introduction to Environmental Economics and Policy: Read More [+]

Rules & Requirements

Prerequisites: Mathematics 32

Credit Restrictions: Students will receive no credit for ECON C3 after completing ECON 1.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Summer: 8 weeks - 6 hours of lecture and 2 hours of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Also listed as: ENVECON C1

Introduction to Environmental Economics and Policy: Read Less [-]

ECON 24 Freshman Seminar 1 Unit

Terms offered: Fall 2011, Spring 2008, Fall 2004

The Freshman Seminar Program has been designed to provide new students with the opportunity to explore an intellectual topic with a faculty member in a small seminar setting. Freshman seminars are offered in all campus departments. Topics vary from department to department and semester to semester. Enrollment limited to 15 freshman.

Freshman Seminar: Read More [+]

Rules & Requirements

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of seminar per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: The grading option will be decided by the instructor when the class is offered. Final exam required.

Freshman Seminar: Read Less [-]

ECON 84 Sophomore Seminar 1 or 2 Units

Terms offered: Spring 2020, Spring 2019, Spring 2018

Sophomore seminars are small interactive courses offered by faculty members in departments all across the campus. Sophomore seminars offer opportunity for close, regular intellectual contact between faculty members and students in the crucial second year. The topics vary from department to department and semester to semester. Enrollment limited to 15 sophomores.

Sophomore Seminar: Read More [+]

Rules & Requirements

Prerequisites: At discretion of instructor

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring:

5 weeks - 3-6 hours of seminar per week

10 weeks - 1.5-3 hours of seminar per week

15 weeks - 1-2 hours of seminar per week

Summer:

6 weeks - 2.5-5 hours of seminar per week

8 weeks - 1.5-3.5 hours of seminar per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: The grading option will be decided by the instructor when the class is offered. Final exam required.

Sophomore Seminar: Read Less [-]

ECON 98 Directed Group Study 1 - 4 Units

Terms offered: Fall 2019, Fall 2016, Fall 2015

Written proposal must be approved by Department Chair. Seminars for the group study of selected topics, which will vary from year to year.

Topics may be initiated by students.

Directed Group Study: Read More [+]

Rules & Requirements

Credit Restrictions: Enrollment is restricted; see the Introduction to Courses and Curricula section of this catalog.

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-4 hours of directed group study per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

Directed Group Study: Read Less [-]

ECON 100A Economic Analysis--Micro 4 Units

Terms offered: Summer 2020 8 Week Session, Spring 2020, Fall 2019
Resource allocation and price determination.

Economic Analysis--Micro: Read More [\[+\]](#)

Rules & Requirements

Prerequisites: 1 or 2 or C3, or Environmental Economics and Policy 1, and Mathematics 1A or 16A, and Mathematics 1B or 16B, or equivalent

Credit Restrictions: Students will receive no credit for ECON 100A after completing ECON 101A or UGBA 101A. A deficient grade in UGBA 101A may be repeated by taking ECON 100A.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1-2 hours of discussion per week

Summer: 8 weeks - 6 hours of lecture and 1.5-4 hours of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Economic Analysis--Micro: Read Less [\[-\]](#)

ECON 100B Economic Analysis--Macro 4 Units

Terms offered: Summer 2020 8 Week Session, Spring 2020, Fall 2019
A study of the factors which determine national income, employment, and price levels, with attention to the effects of monetary and fiscal policy.

Economic Analysis--Macro: Read More [\[+\]](#)

Rules & Requirements

Prerequisites: 1 or 2, and Mathematics 1A or 16A

Credit Restrictions: Students will receive no credit for 100B after taking 101B or Undergraduate Business Administration 101B. A deficient grade in Undergraduate Business Administration 101B may be repeated by taking 100B.

Hours & Format

Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-2 hours of discussion per week

Summer: 8 weeks - 6-6 hours of lecture and 1.5-4 hours of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

ECON 119 Psychology and Economics 4 Units

Terms offered: Summer 2020 First 6 Week Session, Fall 2019, Summer 2019 First 6 Week Session

This course presents psychological and experimental economics research demonstrating departures from perfect rationality, self-interest, and other classical assumptions of economics and explores ways that these departures can be mathematically modeled and incorporated into mainstream positive and normative economics. The course will focus on the behavioral evidence itself, especially on specific formal assumptions that capture the findings in a way that can be incorporated into economics. The implications of these new assumptions for theoretical and empirical economics will be explored.

ECON 131 Public Economics 4 Units

Terms offered: Summer 2020 Second 6 Week Session, Spring 2020, Fall 2019

This course focuses on the role of the government in the economy from a theoretical and empirical perspective. The aim of the course is to provide an understanding of the reasons for government intervention in the economy, analyzing the merits of possible government policies, and the response of economic agents to the government's actions. The course covers the analysis of tax policy, social insurance programs, public goods, environmental protection, and the interaction between different levels of government. Special emphasis is set on current government policy issues such as social security reform, income tax reform, and budget deficits.

ECON 133 Global Inequality and Growth 4 Units

Terms offered: Spring 2020, Spring 2019, Summer 2018 First 6 Week Session

This course provides an introduction to the analysis of economic inequalities and the interplay between inequality and economic growth. It focuses on three sets of core questions: 1) How does inequality evolve over the path of development? 2) What are the theories that can explain the degree of economic inequalities and its dynamic? 3) How do policies affect inequalities, and what types of policies can foster equitable growth? The course addresses these issues from a global and historical perspective: it comprehensively deals with the United States today, but also with inequality in China, India, Latin America, and Europe, as far back as 1700.

Global Inequality and Growth: Read More [a+]

ECON 139 Intermediate Financial Economics 4 Units

Terms offered: Spring 2020, Fall 2019, Spring 2019

This is a 4-unit advanced undergraduate course designed for undergraduates in Economics, Statistics, Mathematics, and Industrial Engineering/Operations Research who are interested in financial economics and finance. This course will stress the link between financial economics and equilibrium theory. Less attention will be devoted to purely financial topics such as the valuation of derivatives. This course is intended as the segue between a first course in financial economics (at the undergraduate level) and graduate-level courses in financial economics and finance.

The idea is to introduce students to the full range of topics typically covered by a financial economics and/or discrete time asset pricing course at the doctoral level.

Intermediate Financial Economics: Read More [+]

Rules & Requirements

Prerequisites: Students need a basic understanding of the principles of finance as well as microeconomic theory. Working knowledge of multi-variable calculus, linear algebra, and probability and statistics will be assumed. Required courses: Economics 100A/101A, Economics 136, or equivalent. Recommended courses: Math 53, Math 54, Statistics 20, or equivalent

Hours & Format

Fall and/or spring: 15 weeks - 4-4 hours of lecture and 0-1 hours of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructors: Bianchi, Anderson

Intermediate Financial Economics: Read Less [-]

ECON 140 Economic Statistics and Econometrics 4 Units

Terms offered: Summer 2020 8 Week Session, Spring 2020, Fall 2019

Introduction to problems of observation, estimation, and hypothesis testing in economics. This course covers the linear regression model and its application to empirical problems in economics.

Economic Statistics and Econometrics: Read More [+]

Rules & Requirements

Prerequisites: Econ 1 or 2 or equivalent, Stats 20, 21, W21, 88, 131A, or 135 or equivalent

Credit Restrictions: Students will not receive credit for 140 after taking 141.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1.5 hours of discussion per week

Summer: 8 weeks - 6 hours of lecture and 3 hours of discussion per week

ECON 144 Financial Econometrics 4 Units

Terms offered: Not yet offered

Since much of financial econometrics is based on time-series data, we will spend the first three weeks introducing/reviewing basic time-series analysis. The course will then start out by discussing the short-run time-series behaviour of stock prices, and present the evidence on short- and long-run predictability of stock returns. We will continue by discussing cross-sectional models and static equilibrium theory, including (but not limited to) the Capital Asset Pricing Model (CAPM) and Arbitrage Pricing Theory (APT). The course will then consider intertemporal equilibrium models, including (but not limited to) Arrow-Debreu pricing theory and the consumption-based CAPM. Finally, the course will look at fixed-income securities and derivative

ECON 174 Global Poverty and Impact Evaluation 4 Units

Terms offered: Spring 2019, Fall 2018, Spring 2018

There are a countless number of potential policies and programs to address the causes and consequences of poverty. However, how should one determine which of these is actually effective in improving the lives of the poor? This course explores a variety of empirical tools to rigorously measure the impact of development programs. Through weekly case studies of field research, students will learn impact evaluation theory and methods, and apply them to concrete examples from the development literature.

Global Poverty and Impact Evaluation: Read More [+]

Rules & Requirements

Prerequisites: Econ 100A or 101A or 100B or 101B; and Econ 140 or 141 or EnvEcon/IAS C118

ECON 191 Topics in Economic Research 4 Units

Terms offered: Spring 2020, Fall 2019, Spring 2019

This course discusses recent research and policy developments. The core objective is to expose students to different aspects of research in economics. A sequence of five different frontier research topics are studied in depth each semester. Each topic lasts three weeks, during which students will familiarize themselves with cutting-edge economic research and methodology. Students will then develop their own research ideas and write two medium-size research papers.
