

UC Berkeley-UCSF Joint Medical Program (JMP)

The UC Berkeley-UCSF Joint Medical Program (JMP) is a five-year graduate/medical degree program. The pre-clerkship years are spent at UC Berkeley, engaging in a leading-edge integrated Problem-Based Learning medical curriculum while simultaneously earning a master's degree (MS) in the Health and Medical Sciences at UC Berkeley's School of Public Health. For their MS degrees, students can pursue research in any field of knowledge with a link to human health. After 2.5 years, our students move across the bay to UCSF to finish their medical education and receive their MDs.

Curriculum

HMEDSCI 261	Research Seminar (2 semesters)	2
PB HLTH 250A	Epidemiologic Methods I (250B also meets requirement)	3
	or PB HLTH 25 Epidemiologic Methods II	
HMEDSCI 262	Qualitative Analysis Thesis Working Group (4 semesters)	4
	or HMEDSCI 261 Mixed Methods/Community-Based Research Thesis Working Group	
	or HMEDSCI 263 Basic, Clinical, and Behavioral Research Thesis Working Group	
	or HMEDSCI 265 Bioethics, Medical Humanities, or Archival Thesis Working Group	
Upper division or graduate level Biostatistics course		
Graduate Elective in research methods, approved by thesis adviser		
Graduate Electives in content area of research		
Summer field research elective		
The medical curriculum that you will register for while pursuing your MS include 5 semesters of Foundational Sciences through PBL, 4 semesters of clinical skills work as part of a Master Clinician Working Group (MCWG), 4 semesters in Clinical Contexts working with clinics in the East Bay and 1 semester of Advanced Studies in Patient Care & Clinical Systems (PCCS).		
HMEDSCI 200	Foundational Sciences through Problem-Based Learning	8
HMEDSCI 216	Clinical Medicine	4
HMEDSCI 218	Clinical Contexts	2
HMEDSCI 220	Advanced Studies in Patient Care & Clinical Systems	4

JMP Masters of Health & Medical Sciences Thesis

A JMP student's MS coursework and research culminate in the crafting of a thesis, including an in-depth literature review of the student's area of expertise and a scholarly product, often a manuscript for submission to a journal. Students can pursue research in any field of knowledge with a link to human health. A database of prior JMP research theses can be accessed at: http://escholarship.org/uc/ucb-ucsf_joint_medical_program

HMEDSCI 200 Foundational Sciences through Problem-Based Learning 8 Units

Terms offered: Fall 2020, Spring 2020, Fall 2019

The five semester sequence introducing principles of the medical basic science, health policy, public health, and clinical aspects of medicine taught in a contextual-integrated case-based format. The sequence includes curriculum in biochemistry, histology, microbiology, immunology, neuroanatomy, pathology, physiology, pharmacology, and clinical sciences.

Foundational Sciences through Problem-Based Learning: Read More [+]

Rules & Requirements

Prerequisites: Graduate standing in Health and Medical Science Joint Medical Program

Repeat rules: Course may be repeated for credit up to a total of 5 times.

Hours & Format

Fall and/or spring: 15 weeks - 9 hours of seminar per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Letter grade.

Foundational Sciences through Problem-Based Learning: Read Less [-]

HMEDSCI 203 Introduction to Clinical Radiology/Anatomy Correlates 1 Unit

Terms offered: Summer 2015 10 Week Session, Summer 2006 10 Week Session, Summer 2005 10 Week Session

An introduction for medical students to the study of radiology and the examination of healthy and diseased organs by imaging techniques, correlated with the Gross Anatomy and Anatomy of Human Development courses. Areas that will be covered include introduction to the major organ systems through the use of radiographs.

Introduction to Clinical Radiology/Anatomy Correlates: Read More [+]

Rules & Requirements

Prerequisites: Graduate standing in HMS Joint Medical Program; must be taken concurrently with 201 and 202

Hours & Format

Summer: 8 weeks - 0 hours of lecture per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Offered for satisfactory/unsatisfactory grade only.

Instructor: Price

Introduction to Clinical Radiology/Anatomy Correlates: Read Less [-]

HMEDSCI 211 Narrative and Medicine 1 Unit

Terms offered: Spring 2019, Spring 2008, Spring 2007

This course's goal is to provide a method for medical students to think, write about, and discuss feelings engendered by clinical encounters. Medical students are taught the need to be emotionally detached from patients, yet being emotionally detached does not mean devoid of emotion. This course offers a means to express and analyze those feelings. Also considered is the value of regarding the medical history as "text" which can be written and read from differing, equally valid viewpoints.

Narrative and Medicine: Read More [+]

Rules & Requirements

Prerequisites: Graduate standing in health and medical sciences or consent of instructor

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of seminar per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Letter grade.

Instructor: Micco

Narrative and Medicine: Read Less [-]

HMEDSCI 216 Clinical Medicine 4 Units

Terms offered: Fall 2020, Spring 2020, Fall 2019

Clinical Medicine at the JMP is designed to learn and practice the basic skills, knowledge and professionalism needed for the practice of medicine. Students enroll in the course for four consecutive semesters during their first and second years.

Clinical Medicine: Read More [+]

Rules & Requirements

Prerequisites: HMS 214

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 6 hours of seminar per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Letter grade.

Instructors: Swartzberg, Mays, Olson

Clinical Medicine: Read Less [-]

HMEDSCI 218 Clinical Contexts 2 Units

Terms offered: Spring 2020, Fall 2019, Spring 2019

The overall objective in the Clinical Contexts course is to provide students with real world experience and an applied opportunity for them to practice the basic skills, knowledge and professionalism needed for the practice of medicine in clinical environments. Clinical placements include preceptorships with practicing clinicians and other experiences designed to expose pre-clerkship medical students to clinical environments. This course compliments their classroom learning course HMS216.

Clinical Contexts: Read More [+]

Rules & Requirements

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of seminar per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Letter grade.

Instructor: Garlin

Clinical Contexts: Read Less [-]

HMEDSCI 220 Advanced Studies in Patient Care & Clinical Systems 3 Units

Terms offered: Fall 2020, Fall 2019, Fall 2018

The overall goals of this course is for students to learn and practice advanced interviewing, integrated and focused clinical history-taking, physical exam skills, clinical decision making and problem solving skills, H & P and SOAP notes, oral case presentations and professionalism in clinical settings. Coursework is divided in 5 elements of Classroom Sessions, Psychiatric Interview, Kaiser PACE Week, 4 Inpatient Preceptorships, and 2 standardized patient exercises at SMU

Advanced Studies in Patient Care & Clinical Systems: Read More [+]

Rules & Requirements

Prerequisites: 4 semesters of HMEDSCI 216 is required

Hours & Format

Fall and/or spring: 12 weeks - 3 hours of seminar per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Letter grade.

Instructors: Garlin, Hartley, Anderson

Advanced Studies in Patient Care & Clinical Systems: Read Less [-]

HMEDSCI 261 Research Seminar 2 Units

Terms offered: Fall 2020, Summer 2015 10 Week Session, Spring 2013

A seminar to help Joint Medical Program students acquire skills necessary to define a research question, find appropriate mentorship, and design a research project. Summer course introduces research design, methods, and expectations for M.S. research in Health and Medical Sciences. Fall and spring semesters address topics in research; student progress toward M.S. thesis is reviewed and critiqued. Development of research plan, protocol design and implementation, and research findings will be reviewed. Each student takes this course three times in the first year.

Research Seminar: Read More [\[+\]](#)

Rules & Requirements

Prerequisites: Graduate standing in Health and Medical Sciences UCB-UCSF Joint Medical Program

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of seminar per week

Summer: 8 weeks - 6 hours of seminar per week

Additional Details

HMEDSCI 262 Qualitative Analysis Thesis Working Group 3 - 4 Units

Terms offered: Fall 2020, Spring 2020, Spring 2000

The Qualitative Analysis TWG provides JMP students a supportive small group student-centered environment in which to discuss their qualitative research with other students engaged in qualitative research towards the goal of the successful completion of the required JMP MS.

Qualitative Analysis Thesis Working Group: Read More [\[+\]](#)

Objectives & Outcomes

Course Objectives: To develop specific skills in qualitative research design, data collection, analysis, presentation and publication, areas of emphasis will include: 1) grounded theory research and analysis and 2) cultural research and analysis

To give students a supportive environment in which to discuss their research with students and faculty who are engaged in similar research.

To give students the opportunity to provide peer advising to their classmates regarding their research projects.

To provide students with individual mentoring by TWG leaders during outside sessions planned between faculty and students

To support students in developing skills in working with a mentor, developing a research design, obtaining IRB approval, collecting and analyzing data, managing a research project, presenting findings as posters or oral presentations, and drafting a master's thesis and/or publication

Rules & Requirements

Prerequisites: 2nd year students-HMS 261 completed with no incompletes 3rd year students-prior HMS 262 completed with no incompletes

Repeat rules: Course may be repeated for credit up to a total of 4 times.

Hours & Format

Fall and/or spring: 15 weeks - 3-5 hours of seminar per week

Additional Details

Subject/Course Level: Health and Medical Sciences/Graduate

Grading: Letter grade.

Instructor: Eyre

Qualitative Analysis Thesis Working Group: Read Less [\[-\]](#)

HMEDSCI 264 Mixed Methods/Community-Based Research Thesis Working Group 3 - 4 Units

Terms offered: Prior to 2007

The Mixed Methods/Community-based Research TWG provides JMP students a supportive small group student-centered environment in which to discuss their research with other students engaged or interested in mixed methods/community-based research projects towards the goal of the successful completion of the required JMP MS.

Mixed Methods/Community-Based Research Thesis Working Group:
