## Expand all course descriptions [+]Collapse all course descriptions [-] EDSTEM 82 K-8 Teaching and Inquiry-Based Lesson Design in the Science and Mathematics Classroom 2 Units

## Terms offered: Fall 2022, Spring 2022, Fall 2021

This course surveys basic approaches to K-8 science and math teaching through modeling inquiry-based teaching and discussion. Topics include inquiry-based pedagogy, assessment techniques, lesson plan design and revision, and child development. Students are placed in science and math learning environments with upper elementary and middle school children to practice teaching. This seminar offers an opportunity to explore teaching, foster children's natural curiosity, and inspire local students.

K-8 Teaching and Inquiry-Based Lesson Design in the Science and Mathematics Classroom: Read More [+] Rules & Requirements

Repeat rules: Course may be repeated for credit with instructor consent.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of seminar per week

Summer: 8 weeks - 4 hours of seminar per week

Additional Details

Subject/Course Level: CalTeach/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Stone

# EDSTEM 82T K-12 Tutoring in Science and Mathematics 2 Units

Terms offered: Fall 2022, Summer 2022 8 Week Session, Spring 2022 This course surveys basic approaches to K-12 science, computer science, engineering, and mathematics (STEM) tutoring through modeling inquiry-based teaching approaches. Topics include effective STEM pedagogy, assessment, lesson plan design and revision, attention to equity in underserved schools, and child development. Students are placed with K-12 students for STEM enrichment and tutoring experiences. This seminar offers an opportunity to explore K-12 teaching, foster children's natural curiosity, and inspire local students to engage in STEM learning.

## EDSTEM 187 Project-Based Instruction 4 Units

Terms offered: Fall 2022, Spring 2022, Fall 2021

Framed around the topic of sustainability, the course engages students from different math, science, and engineering majors in the process of applying the content knowledge from their discipline to build projectbased curricula for presentation as part of the field placement. Students develop pedagogical content knowledge and relate teaching theory to practice through readings, classroom activities, discussion, lesson planning, and field observations. Field placements of 4 hours per week will be scheduled in middle and high school math and science classrooms, and discussion groups will be scheduled at a time convenient for each team to work collaborate. Project-Based Instruction: Read More [+] **Rules & Requirements** 

Prerequisites: EDUC 131AC

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture, 1 hour of discussion, and 4 hours of fieldwork per week

### **Additional Details**

Subject/Course Level: CalTeach/Undergraduate

**Grading/Final exam status:** Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Spencer

# EDSTEM 189 Integrating Research Methods into K-12 Teaching in Mathematics and Science 3 Units

Terms offered: Summer 2022 8 Week Session, Summer 2021 8 Week Session

This course is designed to provide connections between research methods and science and math content learned in a research lab with teaching in the K-12 classroom. Hands-on inquiry-based science and math lessons are modeled and discussed. Students write research proposals, create posters demonstrating their research accomplishments, develop K-12 lesson plans that align with their research, and assemble digital portfolios on standards-based teaching and assessment. Integrating Research Methods into K-12 Teaching in Mathematics and Science: Read More [+]

## **Rules & Requirements**

**Prerequisites:** Students enrolled in the course must have completed one or more CalTeach courses (EDSTEM 82, EDUC 130 or EDUC 131AC) previously, and have a concurrent approved research placement. For approval, submit a CalTeach Summer Research Institute application. CalTeach staff are able to assist with identifying a research placement upon request

### Hours & Format

Summer: 8 weeks - 4 hours of seminar per week

**Additional Details** 

Subject/Course Level: CalTeach/Undergraduate

**Grading/Final exam status:** Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Stone

# EDSTEM 190 Independent Study - Research Methods 3 Units

Terms offered: Summer 2022 10 Week Session, Summer 2021 10 Week Session

Students enrolled will develop an independent research project under the supervision of a research mentor. Students will submit a formal research proposal and a final research paper, guided by the instructor.

Independent Study - Research Methods: Read More [+] Hours & Format

Summer: 8 weeks - 19 hours of independent study per week

**Additional Details** 

Subject/Course Level: CalTeach/Undergraduate

**Grading/Final exam status:** Offered for pass/not pass grade only. Alternative to final exam.

# **EDSTEM 303 Apprentice Teaching in Science and Mathematics 3 Units**

Terms offered: Fall 2022, Spring 2022, Fall 2021

The course is designed to support new science and mathematics teachers in earning a credential for teaching in California secondary schools. Students demonstrate that they have developed the skills to meet the state credentialing requirements by undertaking an inquiry project on their own teaching practice. Effective teaching methods for the science and mathematics classrooms are emphasized, including strategies for lesson planning, assessment, and English language learner support.

Apprentice Teaching in Science and Mathematics: Read More [+] Rules & Requirements

Prerequisites: EDSTEM 187

Repeat rules: Course may be repeated for credit with instructor consent.

### Hours & Format

Fall and/or spring: 15 weeks - 2 hours of seminar and 1 hour of discussion per week

### **Additional Details**

Subject/Course Level: CalTeach/Professional course for teachers or prospective teachers

Grading: Letter grade.
