

Business Administration: MBA for Executives

The Berkeley MBA for Executives Program is a unique learning experience because of how — not simply what — you learn. You will integrate your intellectual talents and industry experience and apply your classroom and experiential learning to actual business situations in unprecedented ways. Although the program is competitive and challenging (it offers the same rigorous degree as our Full Time and Evening & Weekend MBA programs) it is also intensely collaborative, making the often repeated statement that you learn as much from your peers as from your professors more than a truism.

Our Executive MBA program focuses on applying knowledge and skills to challenges that leaders face in today's workplace. As an accomplished professional seeking a highly relevant learning experience, you will find that your studies and classroom discussions have a direct bearing on choices you are making for your organization.

Admission to the University

Minimum Requirements for Admission

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor's degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant comes from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, or an IELTS Band score of at least 7 (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

Applicants Who Already Hold a Graduate Degree

The Graduate Council views academic degrees not as vocational training certificates but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic graduate degrees should be able to pursue new subject matter at an advanced level without need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master's or professional master's degree only if the additional degree is in a distinctly different field.

Applicants admitted to a doctoral program that requires a master's degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master's degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master's degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master's degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

Any applicant who was previously registered at Berkeley as a graduate student, no matter how briefly, must apply for readmission, not admission, even if the new application is to a different program.

Required Documents for Applications

1. **Transcripts:** Applicants may upload *unofficial* transcripts with your application for the departmental initial review. *If the applicant is admitted*, then *official* transcripts of all college-level work will be required. Admitted applicants must request a current transcript from every post-secondary school attended, including community colleges, summer sessions, and extension programs. Official transcripts must be in sealed envelopes as issued by the school(s) attended. If the institution provides official electronic transcripts, they can be emailed directly from the institution. If you have attended Berkeley, upload your unofficial transcript with your application for the departmental initial review.
2. **Letters of recommendation:** Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, not the Graduate Division.
3. **Evidence of English language proficiency:** All applicants from countries or political entities in which the official language is not English are required to submit official evidence of English language proficiency. This applies to applicants from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People's Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement: 1) courses in English as a Second Language, 2) courses conducted in a language other than English, 3) courses that will be completed after the application is submitted, and 4) courses of a non-academic nature. If applicants have previously been denied admission to Berkeley on the basis of their English language proficiency, they must submit new test scores that meet the current minimum from one of the standardized tests.

XMBA 290P Applied Innovation 2 Units

Terms offered: Summer 2025 Second 6 Week Session

We are in the midst of a digital transformation that is changing how industries work and how we will live and work. Responding to this massive change requires that we learn approaches to framing and solving problems different from the analytical approaches most of us have learned and practiced in our careers. Enter design thinking. Designers have long practiced immersion in ambiguous situations, imagining and conceptualizing alternative futures, and learning through experimentation and failure. This course teaches students new ways of collecting data to characterize a problem space, enabling them to frame and reframe problems, generate a range of possible solutions, and then gather feedback to assess those solutions.

XMBA 291RA Building Trust-Based Relationships: Part I 0.5 Units

Terms offered: Fall 2025, Fall 2024

The objective of Building Trust-based Relationships is to help students become better leaders by strengthening their ability to build trust with others such as direct reports, line managers or customers.

By the end of this course, students can expect to have gained:

#

A better understanding of how to build trust

#

Greater self-awareness of their own ability to build trust with others

#

Tangible tools and techniques to build trust-based relationships with others

In the first three of six classes spanning the Fall and Spring Semesters, we administer a self- and 360- trust assessment, introduce students to the Trust Equation and deep dive into active listening and asking enlightening questions, two pillars of building trust with others.

Rules & Requirements

Credit Restrictions: Students will receive no credit for XMBA 291RA after completing XMBA 291R. A deficient grade in XMBA 291RA may be removed by taking XMBA 291R.

XMBA 295G Advanced Innovation 1 Unit

Terms offered: Spring 2025, Spring 2024

This course intends to help students apply the skills of applied innovation in a loosely-structured, open-ended project. Students will learn advanced techniques in the innovation process and apply it to a project of their choice. The course is loosely structured and includes a lot of coaching time with faculty, as well as feedback and critique time with peers. The course largely follows the innovation cycle — observe and notice, frame and reframe, imagine and design, and make and test — but does so nonlinearly.

Hours & Format

Fall and/or spring: 4 weeks - 3 hours of lecture per week

XMBA 295I Entrepreneurship and Innovation Immersion 2 Units

Terms offered: Spring 2025, Spring 2024

This course combines high-impact visits with founders/CEOs and targeted case studies on entrepreneurship. Founder visits provide perspectives on current events in Silicon Valley, as well as opportunities to engage with entrepreneurs on a deeply personal level. Founders will present an overview of their company, followed by a Q&A session. Case studies will focus on the role of experimentation and uncertainty in successful businesses, and will draw on frameworks in strategy, finance, and negotiation.

Hours & Format

Fall and/or spring: 1 weeks - 35 hours of lecture per week

Additional Details

Subject/Course Level: Masters in Bus. Adm. for Executives/Graduate

Grading: Offered for satisfactory/unsatisfactory grade only.

XMBA 295S Entrepreneurial Strategy 2 Units

Terms offered: Prior to 2007

Students learn about the key strategic choices that shape whether companies deliver real value to stakeholders. They are taught to organize the strategic choices into four different strategy "playbooks" that they can use to systematically consider alternate strategies for a startup, and the core elements needed to make these strategies work: Intellectual Property Strategy, Disruptive Strategy, Value Chain Strategy, and Architectural Strategy. Students must (a) analyze cases, thinking systematically through what they would do if they were a founder or early-employee in the protagonists' shoes; (b) engage in class discussions, treating the classroom as a laboratory; and (c) formulate a real strategic plan for a final strategy assignment.

Hours & Format
