

Disability Studies

Minor

The Disability Studies minor provides a space to explore questions such as these: How has disability been defined in various historical moments, in various cultures and eras? While impairment has unquestionably been a frequent experience throughout human history, has disability—the construction of impairment as a generic social category—been a historical constant, or is it a modern invention? What social ideologies, cultural systems, and societal arrangements have shaped the meaning and experience of disability? How has disability been defined or represented in cultural and artistic productions, public laws and policies, modern professional practices, and everyday life?

Declaring the Minor

Students may declare the minor by submitting the Minor Declaration Form below once they have completed three minor courses, including a core course, no later than the term before their Expected Graduation Term (EGT). In your final semester, students need to submit the Minor Completion Form via email to michellerh@berkeley.edu.

No later than the semester before your Expected Graduation Term (EGT) semester, please submit the following form:

* Disability Studies Minor Declaration Form (<https://docs.google.com/forms/d/e/1FAIpQLSe42qVfBOW9tjmvB-1OuS2GbVRSNypnMk0lxIkU2IN9YgjYIg/viewform/>)

In your final semester, please submit the following documents:

* Completion of L&S Minor Form (https://drive.google.com/file/d/1T_Ckpt56_idOPMvpNzFa83cbZYAr3Py8/view/) - **Please be sure to have your major advisor sign page 2 of the Completion of L&S Minor form acknowledging that you are sharing no more than one class between your major and the minor.**

Students who have a strong interest in an area of study outside their major often decide to complete a minor program. These programs have set requirements.

General Guidelines

1. All minors must be declared before the first day of classes in your Expected Graduation Term (EGT). For summer graduates, minors must be declared prior to the first day of Summer Session A.
2. All upper-division courses must be taken for a letter grade.
3. A minimum of three of the upper-division courses taken to fulfill the minor requirements must be completed at UC Berkeley.
4. A minimum grade point average (GPA) of 2.0 is required in the upper-division courses to fulfill the minor requirements.
5. Courses used to fulfill the minor requirements may be applied toward the Seven-Course Breadth requirement, for Letters & Science students.
6. No more than one upper division course may be used to simultaneously fulfill requirements for a student's major and minor programs.

7. All minor requirements must be completed prior to the last day of finals during the semester in which the student plans to graduate. If students cannot finish all courses required for the minor by that time, they should see a College of Letters & Science adviser.

8. All minor requirements must be completed within the unit ceiling. (For further information regarding the unit ceiling, please see the College Requirements tab.)
