

Environmental Design and Urbanism in Developing Countries

Minor

The undergraduate minor in environmental design and urbanism in developing countries serves students majoring in humanities, social sciences, and a variety of professional fields. The minor is intended to expose students to basic problems, cultural contexts, policy alternatives, and design solutions in the Third World.

There is no major program; students interested in pursuing this course of study at the major level should consider the BA in Architecture program (<https://guide.berkeley.edu/archive/2024-25/undergraduate/degree-programs/architecture/>).

Declaring the Minor

A letter grade of C- or higher is required in ENV DES 1 to declare the minor. To declare, students must submit the CED Minor Declaration Form (<https://ced.berkeley.edu/advising/undergraduate-advising/undergraduate-students/major-minor-requirements/>), available on the CED website. Once this request has been approved, you will see the minor added to your Cal Central student profile. It is your responsibility to track your progress towards minor completion using the Academic Progress Report and CED Advising Services.

Other Major and Minors Offered by the Department of Architecture

Architecture (<https://guide.berkeley.edu/archive/2024-25/undergraduate/degree-programs/architecture/>) (Major only)

History of the Built Environment (<https://guide.berkeley.edu/archive/2024-25/undergraduate/degree-programs/history-built-environment/>) (Minor only)

Social and Cultural Factors in Design (<https://guide.berkeley.edu/archive/2024-25/undergraduate/degree-programs/social-cultural-factors-environmental-design/>) (Minor only)

Sustainable Design (<https://guide.berkeley.edu/archive/2024-25/undergraduate/degree-programs/sustainable-design/>) (Minor only)

Students who have a strong interest in an area of study outside their major often decide to complete a minor program.

General Guidelines

1. All minors must be declared no later than one semester before a student's Expected Graduation Term (EGT).
2. A letter grade of C- or higher in ENV DES 1 is required to declare the minor. To declare, students must submit the CED Minor Declaration Form (<https://ced.berkeley.edu/students/undergraduate-advising/forms-documents/>), available on the CED website.
 - a. DEADLINE TO SUBMIT FORM: One semester prior to a student's final semester.
3. Each course used to fulfill minor requirements must be completed with a letter grade of C- or above.
4. Students must earn a 2.0 GPA in the upper division requirements for the minor.

5. Any course used in fulfillment of minor requirements may also be used to fulfill major and upper division CED non-major requirements.
6. Courses used to fulfill a breadth requirement may also be used to satisfy minor requirements.
7. Students may apply the non-CED version of a CED cross-listed course towards the minor.
8. Students may use up to two courses taken abroad to fulfill upper division minor requirements, with faculty approval of the individual courses.

Requirements

Prerequisite

ENV DES 1	Introduction to Environmental Design [3] (A letter grade of C- or higher is required to declare the minor.)
-----------	---

Upper Division (5 courses) ¹

Select three courses from the following:

ARCH 111	Housing: An International Survey [3]
ARCH 170A	An Historical Survey of Architecture and Urbanism [4]
ARCH 170B	An Historical Survey of Architecture and Urbanism [4]
ARCH 179	Special Topics in the History of Architecture [2-4] (when topic relates to developing countries only; must be taken for 2+ units.)
ARCH 218	Housing, Urbanization, and Urbanism: Design, Planning, and Policy Issues in Developing Countries [4] (Instructor permission required)
CY PLAN/ GPP 115	Urbanization in Developing Countries [4] ^{2, 3}
ENV DES 100	The City: Theories and Methods in Urban Studies [4] ²

Select two courses from the following: ⁴

ANTHRO 141	Comparative Society [4]
ANTHRO courses numbered between ANTHRO 170-ANTHRO 188	
ESPM 155AC	Sociology and Political Ecology of Agro-Food Systems [4]
GEOG C112	Global Development: Theory, History, Geography [4] (cross-listed w/ DEV STD C100)
HISTORY 109C	The Middle East From the 18th Century to the Present [4]
HISTORY 111E	Topics in the History of Southeast Asia: Modern Southeast Asia [4]
HISTORY 111C	Topics in the History of Southeast Asia: Political and Cultural History of Vietnam [4]
HISTORY 112E	Africa: Modern South Africa, 1652-Present [4]
HISTORY 113B	Modern Korean History [4]
HISTORY 114A	Politics, Culture, and Philosophy in South Asia before Modernity [4]
HISTORY 114B	India: Modern South Asia [4]
HISTORY 116E	China: Two Golden Ages: China During the Tang and Song Dynasties [4]
HISTORY 116C	China: Modern China [4]
HISTORY 140E	Mexico: Modern Mexico [4]

HISTORY 141B Social History of Latin America: Social History of Modern Latin America [4]

HISTORY 143 Brazil [4]

POL SCI 139B Development Politics [4]

POL SCI 141C Politics and Government in Eastern Europe [4]

POL SCI 142A Middle East Politics [4]

POL SCI 143A Northeast Asian Politics [4]

POL SCI 143B Japanese Politics [4]

POL SCI 144B Politics of Divided Korea [4]

POL SCI 145B South Asian Politics [4]

POL SCI 148A Latin American Politics [4]

¹ Graduate courses in subjects related to those on Lists 1 and 2 may be used as substitutes if approved by the faculty adviser.

² All International and Area Studies (IAS) courses including those in Middle Eastern Studies (M E STU), Latin American Studies (LATAMST), Peace and Conflict Studies (PACS), Development Studies (DEV STD), and Political Economy of Industrial Societies (POLECON) may be used as substitutes provided prior approval of the faculty minor adviser is granted. Please contact the staff adviser for more information.

Environmental Design and Urbanism in Developing Countries

ENV DES 1 Introduction to Environmental Design 3 Units

Terms offered: Fall 2025, Summer 2025 8 Week Session, Fall 2024

This course will teach anyone how to start to be a designer, not just of drawings and objects, but also buildings, landscapes, and urban spaces. And not just in isolation, but in the complex web of ecological and man-made systems which makes up our shifting environment. You will take from the course first-hand experience of drawing, measuring, and design — which form the basis of the professions of architecture, landscape architecture, and urban planning— and which culminate in a final design project in the course. The course is open to all undergraduate students.

Rules & Requirements

Credit Restrictions: Students will receive no credit for ENV DES 1 after completing ENV DES 4.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 2 hours of discussion per week

Summer: 8 weeks - 6 hours of lecture and 4 hours of discussion per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructors: de Monchaux, Jewell

ENV DES 2 Summer [IN]STITUTE in Environmental Design 1 Unit

Terms offered: Summer 2025 Second 6 Week Session, Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session

The Summer [IN]STITUTE consists of four cohorts, each an introductory course for participants with no previous experience in environmental design: [IN]ARCH, [IN]ARCH ADV, [IN]CITY and [IN]LAND. Institute participants explore the methods and theories of the environmental design disciplines, experience the culture of design and planning studios, connect to faculty and practitioners, and build a portfolio for graduate school application. Each program includes a lecture series, a design or planning studio, a media seminar, and site visits. For more information, visit <http://ced.berkeley.edu/academics/summer-programs/summer-institute/>.

Hours & Format

Summer: 6 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

ENV DES R3B Reading and Composition in Energy, Society, and Environmental Design 4 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023

This course will expose students to key literature that examines, primarily, the relationship between sustainability and environmental design disciplines. Our goal will be not only to investigate the central ideas that inform the design of sustainable landscapes, cities, and buildings, but also to understand how competing arguments are presented in writing. Satisfies the second half of the Reading and Composition Requirement.

Rules & Requirements

Prerequisites: Previously passed an R_A course with a letter grade of C- or better. Previously passed an articulated R_A course with a letter grade of C- or better. Score a 4 on the Advanced Placement Exam in English Literature and Composition. Score a 4 or 5 on the Advanced Placement Exam in English Language and Composition. Score of 5, 6, or 7 on the International Baccalaureate Higher Level Examination in English

Requirements this course satisfies: Satisfies the second half of the Reading and Composition requirement

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Final exam not required.

ENV DES 4A Design and Activism 3 Units

Terms offered: Fall 2020, Fall 2019, Fall 2018

This course explores the relationships between design and activism, raising critical questions about what design is, and how designers serve as guardians of culture and as agents of change. Students will participate in "spontaneous acts of design activism" that address contemporary issues through the making of forms and space to reinvent relationships between people and their environments.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ENV DES 4B Global Cities 3 Units

Terms offered: Spring 2021, Spring 2020, Spring 2019

This study of cities is more important than ever; for the first time in history more people live in urban than rural areas, and cities will account for all of the world's population growth for at least the next half-century. We will explore the challenges facing global cities in the 21st Century and expose students to some of the key texts, theories, and methods of inquiry that shape the built environment, from the human scale of home and community to the regional scale of the megacity.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ENV DES 4C Future Ecologies: Urban Design, Climate Adaptation, and Thermodynamics 3 Units

Terms offered: Spring 2021, Spring 2020, Spring 2019

This course is intended to provide students with an overview of current thinking about cities and their components (buildings, parks, streets) as ecological and cultural systems. It will provide an introduction to methods for investigating the dynamics of flows and relationships in the built environment and students will gain experience constructing their own narratives as ways of asking and answering questions about human habitat that could shape the future.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ENV DES 5 Cities and Sites 4 Units

Terms offered: Summer 2025 8 Week Session, Spring 2025, Spring 2024

This course explores cities and landscapes as layered repositories of history, both ecological and human. Examining environmental design history and practice, it highlights how deep time legacies are acknowledged or ignored in placemaking, including racialized spatial histories. In addressing the role of architecture, city planning, and landscape design in shaping places and giving them meaning, the course explores the diversity of spatially defined experiences and the ways in which they are shaped by policy and professional practice. Case studies on Bay Area urban and social geography are linked with transnational histories and design movements to highlight the larger forces that have shaped the local historical and social landscape.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Summer: 8 weeks - 8 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructors: Castillo, Hood

ENV DES 8 DISC: Design & Innovation for Sustainable Cities 1 Unit

Terms offered: Summer 2025 Second 6 Week Session, Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session
DISC is a five-week summer program that explores an interdisciplinary and multi-scalar approach to planning and design of the built environment. Students will engage in the discourse of urban innovation to tackle the pressing challenges cities are facing today. The Urban Innovation and Global Cities Global Challenges Seminars will establish a theoretical framework which will give students a strong understanding of urban dynamics and some concepts of how to tackle its urgent demands. The Lecture Series will expose students to the work of some of the most renowned & forward-thinking researchers and practitioners in the Bay Area and abroad. The 4-unit course ENV DES 8L can be added to this course.

Rules & Requirements

Prerequisites: This course requires a special application. Contact summerdiscovery@berkeley.edu for more information

Hours & Format

Summer: 5 weeks - 1 hour of lecture and 2 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Kaprielian

ENV DES 8L DISC: Design & Innovation for Sustainable Cities 4 Units

Terms offered: Summer 2025 Second 6 Week Session

DISC is an immersive five-week program that explores an interdisciplinary and multi-scalar approach to planning and design of the built environment. Through seminars and lectures, studio workshop sessions, site analysis and fieldwork, students will engage in the discourse of urban innovation, and develop creative solutions to tackle the pressing challenges cities are facing today. This 4-unit course can only be taken in addition to ENV DES 8 and cannot stand on its own.

Objectives & Outcomes

Course Objectives: •

Assess unmet needs of the studio project location through research and inquiry.

•

Create effective representation utilizing digital graphics and emergent technologies.

•

Develop an informed design proposal for the site context and identified stakeholders.

Rules & Requirements

Prerequisites: This course requires a special application (contact summerdiscovery@berkeley.edu) and needs to be taken together with ENV DES 8

Hours & Format

Summer: 5 weeks - 9 hours of studio, 1 hour of fieldwork, and 2 hours of laboratory per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Kaprielian

ENV DES 9 embARC Summer Design Academy 1 Unit

Terms offered: Summer 2025 Second 6 Week Session, Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session

embARC is a four week summer design intensive that brings together high school students from diverse backgrounds to explore architecture, urban design and sustainable city planning through three components: an Architecture & Urban Design Studio, a Sustainable City Planning Workshop and a Design-Build project. For more information, visit <http://ced.berkeley.edu/academics/summer-programs/embarc-design-academy/>

Objectives & Outcomes

Student Learning Outcomes: Be exposed to actual public policy issues and make a real impact on the bay area community.

Build a design portfolio to use when applying to college.

Earn a certificate of completion and 1 unit of credit on an official UC Berkeley transcript.

Explore architecture, urban design and city planning as possible college majors and careers.

Hone and develop two and three dimensional design skills through college-level coursework.

Immerse yourself in design studio culture and the college campus experience.

Work in a team environment with peers who have similar interests.

Hours & Format

Summer: 4 weeks - 5 hours of studio, 5 hours of laboratory, and 2.5 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Suczynski-Smith

ENV DES 10 The History of Thought in Environmental Design 3 Units

Terms offered: Spring 2011, Fall 2009, Fall 2008

With emphasis on key events of the 20th and now 21st century, this course introduces the big ideas and individuals that have shaped architecture, urban planning, and landscape architecture.

Rules & Requirements

Prerequisites: None. Open to all undergraduates in the College of Environmental Design and other colleges and majors

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Summer: 8 weeks - 6 hours of lecture and 2 hours of discussion per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ENV DES 98BC Berkeley Connect 1 Unit

Terms offered: Prior to 2007

Berkeley Connect is a mentoring program, offered through various academic departments, that helps students build intellectual community. Over the course of a semester, enrolled students participate in regular small-group discussions facilitated by a graduate student mentor (following a faculty-directed curriculum), meet with their graduate student mentor for one-on-one academic advising, attend lectures and panel discussions featuring department faculty and alumni, and go on field trips to campus resources. Students are not required to be declared majors in order to participate.

Rules & Requirements

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

ENV DES 100 The City: Theories and Methods in Urban Studies 4 Units

Terms offered: Spring 2024, Spring 2023, Spring 2022

This course is concerned with the study of cities. Focusing on great cities around the world - from Chicago to Los Angeles, from Rio to Shanghai, from Vienna to Cairo it covers of historical and contemporary patterns of urbanization and urbanism. Through these case studies, it introduces the key ideas, debates, and research genres of the interdisciplinary field of urban studies. In other words, this is simultaneously a "great cities" and "great theories" course. Its purpose is to train students in critical analysis of the socio-spatial formations of their lived world.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Summer: 8 weeks - 6 hours of lecture and 2 hours of discussion per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Roy

ENV DES 101A Writing about Environmental Design: Short Compositions 2 - 4 Units

Terms offered: Spring 2021, Spring 2020, Spring 2019

An intensive workshop for students interested in writing about architecture, landscape, and the built environment. Recognizing that undergraduate students who take this course represent departments outside as well as within the College of Environmental Design, assignments are touchstones for students of different disciplines to bring their current academic interests into play when writing about environmental design. Weekly assignments include prose readings, generally essays related to life experience. Brief readings and discussions during each class, along with weekly writing assignments of 3-5 pages of prose will illustrate the skills involved in the craft of writing.

Rules & Requirements

Prerequisites: English 1B and consent of instructor

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 10 weeks - 3 hours of laboratory and .5 hours of tutorial per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Lifchez

Formerly known as: 101

ENV DES 101B Writing about Environmental Design: One Longer Composition 2 - 4 Units

Terms offered: Fall 2019, Fall 2018, Fall 2017

In 101B: The Notebook (one long composition in 14 weekly assignments) assigned readings (principally short stories) offer examples of writing which parallel the focus of the week's writing assignment. Prompts and assigned readings encourage the individual development of a "story" or "theme" that each student at the outset or in the process of writing, arrives at a personal narrative. Course approved for English department credit and UC Undergraduate Minor in Creative Writing.

Rules & Requirements

Prerequisites: English 1B and consent of instructor

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Lifchez

Formerly known as: 101

ENV DES 102 Climate Change and City Planning: Adaptation and Resilience 3 Units

Terms offered: Fall 2025, Fall 2024, Spring 2024

This course introduces students to major issues in urban resilience and adaptation planning, particularly in relation to anthropogenic climate change. By the end of the course, students will have: (1) a critical understanding of key concepts such as risk, vulnerability, adaptation, and resilience; (2) an understanding of the interaction between adaptation planning, policy, and urban operating systems such as infrastructures, finance, and land use governance; (3) a basic introduction to practical tools such as vulnerability mapping, urban carbon budgeting, and participatory vulnerability assessment. The course will primarily draw on case material from the United States and secondarily from selected international cases.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Summer: 8 weeks - 6 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Collier

ENV DES 104 Design Frameworks 3 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023

This course begins with an open-ended question ("What is design?") and asks students to think critically about the central tenets, commonalities, and limits of design in an ever-changing complex world. A historical and theoretical overview of predominant schools of thought across all scales of design (i.e. industrialization, modernism, post-modernism, and beyond) will ground the discussions to follow. Topics related to environmental sustainability including industrial ecologies, ecological design principles, lifecycle, biomimicry, LEED and accreditation systems, and closed-loop cycles will be presented.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ENV DES 105 Deep Green Design 4 Units

Terms offered: Fall 2013, Fall 2012, Fall 2011

Design problems from an ecological perspective. Design studies of relationships among ecosystem, energy, and resource flows, human social and cultural values, and technological variables as they interact to produce the built environment.

Rules & Requirements

Prerequisites: Consent of instructor and upper division standing. Students are to have taken at least one design studio and one course on sustainable design prior to taking this course

Hours & Format

Fall and/or spring: 15 weeks - 4 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Ubbelohde

ENV DES 106 Sustainable Environmental Design Workshop 4 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023

This course asks students to reflect back, reviewing the various disciplinary approaches introduced toward sustainability and to look forward by proposing interdisciplinary ways to affect the environment. Each year will be organized around a theme and project advanced by the faculty of the College. The workshop will require independent as well as collaborative research often in partnership with an external 'client' organization.

Rules & Requirements

Prerequisites: Environmental Design 102

Hours & Format

Fall and/or spring: 15 weeks - 4 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 107 Design and Difference 4 Units

Terms offered: Fall 2016

This course explores contemporary debates around race, gender, sexuality, disability rights and other forms of embodied politics and considers their potential to transform the normative assumptions and practices of the built environment disciplines. Concepts such as self-abstraction, assimilation, and discourses of the “universal” or neutral body will be examined critically in relation to socially situated theories of power, identity, and activism. The course will investigate case studies of everyday objects, buildings and urban space that exemplify the creative limits and possibilities of embodied difference in the design process. Weekly reading responses, class discussions, presentations, and a final project are required.

Rules & Requirements

Prerequisites: Completion of a minimum of one design studio, two studios preferred

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of seminar per week

Summer: 8 weeks - 6 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 109 Special Topics in Environmental Design 2 - 4 Units

Terms offered: Spring 2020

The College of Environmental Design's founding vision was to bring the making of buildings, landscapes, and cities together to meet diverse human needs. To address problems facing today's global cities and regions, we need to build the disciplinary bridges that prepare practitioners and scholars who can work together on solutions. This special topics CED multi-disciplinary course focuses on themes or issues in environmental design; takes substantial account of issues drawn from at least two of the three disciplinary areas in the college (architecture, landscape architecture and environmental planning, or city and regional planning); and presents the disciplinary perspectives of the issues in integrative or comparative ways.

Rules & Requirements

Prerequisites: Consent of instructor

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring: 15 weeks - 2-4 hours of seminar per week

Summer: 8 weeks - 4-7.5 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 110 Designing Sustainability 3 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023

This class aims to help you engage with and navigate the resources of the CED, including a broad overview of sustainability in contemporary life. In discussions and guest lectures, we will frame contemporary conversations around sustainability with an emphasis on current dialogues. Guest speakers will share their perspectives about how the discussion of sustainability can and should be framed. You will be introduced to important campus resources and faculty who will assist you in designing your own path through the Sustainable Environmental Design program.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 121 Imagining, re-Envisioning the Urban Setting 6 Units

Terms offered: Summer 2019 10 Week Session

The question of how we see, record, recall and reconstruct places is of primary interest in this course. This inquiry will prove to be the underpinning pursuit of our investigations this summer while in Spain. We will not only explore different territories but we will also experiment with different methodologies of reconnaissance and attempt to maintain a presence so that the places we visit also become manifest to us in their phenomenal and experiential states.

Hours & Format

Summer: 10 weeks - 9 hours of lecture and 18 hours of fieldwork per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Salazar-Jasbon

ENV DES 131 The Community Design Process 3 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023

The Community Design Process will give CED undergraduate students the opportunity to effect change in the Bay Area through direct engagement and mentorship of Bay Area teens. Through a unique partnership with FamFirst Family Foundation, undergraduates will support a new generation of innovative thinkers to create solutions for the future of Oakland and the world. This interdisciplinary course will engage undergraduates in activities that range from curriculum development to direct mentorship, teaching, project planning, project management, and direct engagement with FamFirst teens at the West Oakland Youth Center.

Rules & Requirements

Prerequisites: Please note that there is a formal application process for enrollment in this course

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 4 hours of fieldwork per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Formerly known as: Environmental Design 31

ENV DES 132AC Future Histories Studio: Revealing the Past, Imagining the Future 3 - 4 Units

Terms offered: Summer 2021 8 Week Session, Summer 2021 First 6 Week Session

This project-based, community-engaged course teaches students how to study and represent the past and potential future of a specific place in collaboration with its residents, with an emphasis on centering marginalized stories and influencing positive change. This is a humanities studio course, rooted in history, literature and film; using creative arts tools; incorporating spatially oriented methods from architecture, landscape architecture, and city planning; and social sciences approaches from geography, anthropology and sociology. At a location chosen by the instructor, students will work with a community organization to create exhibitions, oral histories, installations, public archives, performances, plans, websites, or publications.

Rules & Requirements

Requirements this course satisfies: Satisfies the American Cultures requirement

Repeat rules: Course may be repeated for credit up to a total of 1 time.

Hours & Format

Summer:

6 weeks - 7.5-9.5 hours of lecture per week

8 weeks - 6-8 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Also listed as: HUM 132AC

ENV DES C132 Future Histories Studio: Revealing the Past, Imagining the Future 3 - 4 Units

Terms offered: Spring 2023

This project-based, community-engaged course teaches students how to study and represent the past and potential future of a specific place in collaboration with its residents, with an emphasis on centering marginalized stories and influencing positive change. This is a humanities studio course, rooted in history, literature and film; using creative arts tools; incorporating spatially oriented methods from architecture, landscape architecture, and city planning; and social sciences approaches from geography, anthropology and sociology. At a location chosen by the instructor, students will work with a community organization to create exhibitions, oral histories, installations, public archives, performances, plans, websites, or publications.

Rules & Requirements

Repeat rules: Course may be repeated for credit up to a total of 1 time.

Hours & Format

Fall and/or spring: 15 weeks - 4-6 hours of lecture per week

Summer:

6 weeks - 7.5-9 hours of lecture per week

8 weeks - 6-8 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Also listed as: HUM C132

ENV DES 133AC Hidden in Plain Sight: Public History in Public Space 3 Units

Terms offered: Summer 2023 8 Week Session, Summer 2022 8 Week Session

This course explores the ways history and memory are represented or erased in public space and how this affects policies and futures. We will examine monuments, public art, streets, parks, museums, archives, performative traditions and virtual space. Students will propose ways of representing history in public space as a way to shape future histories. We will explore the concept of "public history" and study artistic and literary representations of the past. We will consider the ways that city planning and urban design have used or ignored memory and meaning. Highlighting landscapes shaped by economic inequality, migration, incarceration, and racism, we will analyze what is hidden, forgotten, missing, or in need of representation.

Hours & Format

Summer: 8 weeks - 6 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Also listed as: HUM 133AC

ENV DES 151 Data, Design and Activism 3 Units

Terms offered: Prior to 2007

This course explores relationships between data, design and activism, raising critical questions about what data and data analytics are; what design is; and how both data and design can serve to protect the status quo as well as become agents of change. In turn, the course also surveys the ways in which activism has historically played a role in data analysis and design practice at the scales of planning, architecture, landscape, and cities.

Through lectures, readings, and exercises, students explore data/design activism or the use of data analytics and design interventions to catalyze change.

Objectives & Outcomes

Course Objectives: To develop effective communication skills – graphic, written, and verbal.

To gain familiarity with the language and process of data analysis and design through media including mapping, visualization, drawing and making.

To recognize the value of sustainability at all levels of data analytics and design.

To understand applications of architecture, landscape architecture, and city planning through the social context of data and design interventions.

To understand major debates in the literature of data and design activism.

To understand the implications of environmental design in local, national, and global settings.

Hours & Format

Summer: 6 weeks - 7.5 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Wolch

ENV DES 152 Maps as Social Justice Interventions 3 Units

Terms offered: Summer 2022 First 6 Week Session

This course (1) provides a basic introduction to the use of maps in society, using critical frameworks to analyze the politics and epistemologies of spatial and temporal maps; (2) explores conceptions of justice across different spatial arenas, with a focus on how visualization shapes such notions; and (3) teaches visualization and story mapping techniques for social activism.

Objectives & Outcomes

Course Objectives: To develop effective communication skills – graphic, written, and verbal.

To gain familiarity with the language and process of data analysis and design through data collection, geospatial analysis, and mapping.

To recognize the value of social justice and equity in data analysis and visualization.

To understand applications of architecture, landscape architecture, and city planning through the social context of spatial data and mapping.

To understand major debates in the literature of GIS and society.

To understand the implications of environmental design in urban and regional settings.

Hours & Format

Summer: 6 weeks - 8 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Chapple

ENV DES 153 Urban Landscapes and Green Equity 3 Units

Terms offered: Summer 2024 First 6 Week Session, Summer 2023 First 6 Week Session, Summer 2022 First 6 Week Session

The equitable design, implementation and management of our urban landscapes requires an interdisciplinary skillset that hinges on the understanding of environmental, political, and community factors that give rise to complex socio-economic and socio-demographic patterns. Students will use urban data analytics and design methods at various scales – from neighborhood to regional – with an emphasis on balancing between sustainable development and green equity as we strive to address a changing climate.

Hours & Format

Summer: 6 weeks - 6 hours of lecture and 1.5 hours of discussion per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Mozingo

ENV DES 154 Participatory Community Design 3 Units

Terms offered: Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session, Summer 2022 Second 6 Week Session

The course explores immersive technologies and spatial computing tools such as Virtual and Augmented Reality in their potential to coalesce and make visible the social and cultural forces that inhabit and animate the built environment. First-person experiences enabled by immersive technologies are increasingly being extended to multi-user ecosystems that pave the way for novel collaborative design and community participation platforms. Design methods traditionally associated with the built environment can be augmented by overlaying of data, communications, multimodal media formats and storytelling, with horizontally disruptive potential across different fields.

Hours & Format

Summer: 6 weeks - 3 hours of lecture and 4.5 hours of laboratory per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Caldas

ENV DES 161 [IN]ARCH 5 Units

Terms offered: Summer 2025 Second 6 Week Session, Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session

[IN]ARCH is an intensive six-week program designed to immerse students in the foundational theories, philosophical principles and technical practices of architectural design. The program teaches fundamentals of design, studio culture and architectural discourse with an emphasis on two linked but distinct components: studio instruction and media instruction. These will be supplemented by a lecture series, field trips, readings and project reviews.

Objectives & Outcomes

Course Objectives: [IN]ARCH is geared towards post-baccalaureate students who are considering graduate study in landscape architecture. Successful students will build a quality portfolio that can be used for further academic pursuits on a graduate level. No previous design experience is necessary.

Student Learning Outcomes: The media component of the course provides practical knowledge as well as historical and conceptual context for various modes of representation. These techniques are both analog and digital, covering two and three-dimensional representational concerns through drawing, modeling and presentation & portfolio development.

Hours & Format

Summer: 6 weeks - 6 hours of lecture, 8 hours of laboratory, and 12 hours of studio per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 162 [IN]CITY 5 Units

Terms offered: Summer 2025 Second 6 Week Session, Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session
[IN]CITY is an intensive six-week program designed to immerse students in city planning and urban design. By attending daily lectures and engaging in studio work, participants acquire the skills necessary to inform planning proposals. [IN]CITY assignments are based on real projects with actual clients who represent a diverse group of stakeholder organizations in the San Francisco Bay Area. These organizations actively aim to influence sustainable planning policy at the local, county and regional levels.

Objectives & Outcomes

Course Objectives: [IN]CITY is geared towards post-baccalaureate students who are considering graduate study in urban design and city & regional planning. Successful students will build a quality portfolio that can be used for further academic pursuits on a graduate level. No previous planning or urban design experience is necessary.

Student Learning Outcomes: [IN]CITY students develop in-depth recommendations, analyses and proposals for these client projects, which run the gamut of planning practice: housing and design, bike mobility and transportation, public health and environmental justice, community development and gentrification, urban design, climate action and art in public spaces. In doing so, participants have an opportunity to influence planning in the Bay Area by exploring institutional, political, social, economic and environmental policy challenges.

Hours & Format

Summer: 6 weeks - 10 hours of lecture, 4 hours of laboratory, and 12 hours of studio per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 163 [IN]LAND 5 Units

Terms offered: Summer 2025 Second 6 Week Session, Summer 2024 Second 6 Week Session, Summer 2023 Second 6 Week Session
[IN]LAND is an intensive six-week program designed to immerse students in landscape architecture. Students are learning the fundamentals of landscape architectural practice through the process of making and experimentation as research into site potentials. Initial ideas are developed and transformed through rigorous investigation in a collaborative studio environment. Students develop a landscape vocabulary that engages with the concepts of ecology, public space, sustainability and multiple scales of design.

Objectives & Outcomes

Course Objectives: [IN]LAND is geared towards post-baccalaureate students who are considering graduate study in landscape architecture. Successful students will build a quality portfolio that can be used for further academic pursuits on a graduate level. No previous design experience is necessary.

Student Learning Outcomes: Throughout the course, students learn to express a site in terms of its organizational and relational characteristics while investigating a range of potential conditions over time. Individually and collectively, students pursue inquiries that are agile and flexible, and experiment with various mediums to uncover hidden aspects of processes, spaces and materiality.

Hours & Format

Summer: 6 weeks - 3 hours of lecture, 6 hours of laboratory, and 16 hours of studio per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES 164 [IN]DESIGN 1 Unit

Terms offered: Prior to 2007

The [IN]DESIGN Program is an intensive architectural studio for students to engage in the study of architecture as an interface to the environment, landscape, and urbanism. Weekly lectures and design assignments are taught on Zoom through visual critiques on a Miro virtual gallery board. The series of eight weekly assignments are developed cumulatively into one building / landscape project sited along the San Francisco waterfront. The studio ends with a portfolio workshop for graduate school applications.

Hours & Format

Summer: 8 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

ENV DES C169A American Cultural Landscapes, 1600 to 1900 4 Units

Terms offered: Fall 2014, Fall 2013, Fall 2012, Fall 2011

Introduces ways of seeing and interpreting American histories and cultures, as revealed in everyday built surroundings-- houses, highways, farms, factories, stores, recreation areas, small towns, city districts, and regions. Encourages students to read landscapes as records of past and present social relations and to speculate for themselves about cultural meaning.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Groth

Also listed as: AMERSTD C112A/GEOG C160A

ENV DES C169B American Cultural Landscapes, 1900 to Present 4 Units

Terms offered: Spring 2017, Spring 2015, Spring 2014

Introduces ways of seeing and interpreting American histories and cultures, as revealed in everyday built surroundings--homes, highways, farms, factories, stores, recreation areas, small towns, city districts, and regions. Encourages students to read landscapes as records of past and present social relations, and to speculate for themselves about cultural meaning.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Groth

Also listed as: AMERSTD C112B/GEOG C160B

ENV DES 170 The Social Art of Architecture 3 Units

Terms offered: Spring 2012, Spring 2011, Spring 2010

What is the social art of architecture in America? What was it historically, where is it now, where is it going--and why should you care? In this course, we will explore contemporary and historic attempts to confront social needs through themes: Design by Professionals (Architects, City Planners, Urban Designers, Sociologists, Philosophers, Philanthropists), and Design by Laypeople (Squatters, Intentional Communities, Do It Yourself). The objective is to discharge the false dualism that has emerged in architecture between social concerns and creative design.

Rules & Requirements

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Lifchez

ENV DES 193 Curricular Practical Training for International Students 0.0 Units

Terms offered: Summer 2014 8 Week Session, Summer 2013 10 Week Session

This is a zero-unit internship course for F-1, non-immigrant, international students participating in internships under the Curricular Practical Training program. Requires a paper exploring how the theoretical constructs learned in Environmental Design courses were applied during the internship.

Rules & Requirements

Prerequisites: International students only

Hours & Format

Fall and/or spring: 15 weeks - 0 hours of internship per week

Summer: 8 weeks - 0 hours of internship per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

ENV DES 195 Senior Thesis 4 Units

Terms offered: Fall 2012, Fall 2011, Spring 2011

Directed study leading to preparation of a senior thesis.

Rules & Requirements

Prerequisites: Limited to students with approved individual majors in the College of Environmental Design

Repeat rules: Course may be repeated for credit up to a total of 8 units.

Hours & Format

Fall and/or spring: 15 weeks - 0 hours of independent study per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ENV DES 195A Introduction to Methods and Thesis Preparation 3 Units

Terms offered: Fall 2014, Fall 2013

The Senior Thesis in Environmental Design is an advanced research and writing project that presents an original and thorough analysis of a topic of individual interest in architecture, landscape architecture, or urban studies. This class provides an introduction to various methodologies relevant for a senior thesis including qualitative, quantitative, and descriptive research approaches.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of seminar per week

Summer: 8 weeks - 6 hours of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

ENV DES 195B Thesis Research and Writing 3 Units

Terms offered: Summer 2021 8 Week Session, Spring 2017, Spring 2014

Students taking this class will use it to complete the writing of their thesis under the supervision of a Senior Thesis Advisor. This class will operate as an independent study; faculty with more than one Senior Thesis student may choose to meet them in group sessions.

Rules & Requirements

Prerequisites: Environmental Design 195A

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of independent study per week

Summer: 8 weeks - 6 hours of independent study per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

ENV DES 198 Directed Group Study 1 - 4 Units

Terms offered: Spring 2025, Fall 2023, Fall 2019

This is a special topics course intended to fulfill the individual interests of students, and provide a vehicle for professors to instruct students based on new and innovative developments in the field of environmental design.

Rules & Requirements

Prerequisites: Restricted to 3rd and 4th year students

Credit Restrictions: Enrollment is restricted; see the Introduction to Courses and Curricula section of this catalog.

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-4 hours of directed group study per week

Summer:

6 weeks - 2.5-10 hours of directed group study per week

8 weeks - 2-8 hours of directed group study per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

ENV DES 198BC Berkeley Connect 1 Unit

Terms offered: Prior to 2007

Berkeley Connect is a mentoring program, offered through various academic departments, that helps students build intellectual community. Over the course of a semester, enrolled students participate in regular small-group discussions facilitated by a graduate student mentor (following a faculty-directed curriculum), meet with their graduate student mentor for one-on-one academic advising, attend lectures and panel discussions featuring department faculty and alumni, and go on field trips to campus resources. Students are not required to be declared majors in order to participate.

Rules & Requirements

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of seminar per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

ENV DES 199 Supervised Independent Study and Research 1 - 4 Units

Terms offered: Fall 2023, Spring 2018, Fall 2017

Enrollment is restricted by regulations in the General Catalog. Studies developed to meet individual needs.

Rules & Requirements

Prerequisites: Must have upper division standing

Credit Restrictions: Enrollment is restricted; see the section on Academic Policies-Course Number Guide in the Berkeley Bulletin.

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-4 hours of independent study per week

Summer:

6 weeks - 2.5-10 hours of independent study per week

8 weeks - 2-7.5 hours of independent study per week

Additional Details

Subject/Course Level: Environmental Design/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.
